To Who it May Concern

Deep Frozen Chicken products from Brazil.

We take pride in offering an exceptional range of chicken products that epitomize poultry excellence. Our commitment to quality, sustainability, and ethical sourcing ensures that every bite delivers a delightful culinary experience.

- **Chicken Paws / Feet** exporting company in the world destination to China.

We source our chickens from trusted farms that prioritize animal welfare and employ sustainable farming practices. These farms provide a natural and healthy environment for the chickens, allowing them to thrive and develop optimum flavor and tenderness.

Our chicken products undergo rigorous quality checks and adhere to the highest food safety standards. From whole chickens to a variety of cuts, each piece is carefully selected to meet our stringent criteria for freshness, texture, and taste. (China Listed)

We understand the importance of transparency and traceability in the food industry. That's why we ensure complete visibility into the journey of our chicken products, from farm to table. We can trace every step of the process, providing you with the assurance that you are consuming poultry of the highest quality and integrity.

Competitive Prices. High Quality Products

With Stay Ambitious & Be Ambitious chicken products, in cooperation with our Local Quota holders in Brazil (BRF), you can feel confident that you are offering your customers or enjoying for yourself poultry of the finest quality, sourced responsibly, and crafted with care. Stay tuned for the detailed specifications of our chicken products, where you'll discover the specific cuts, sizes, and other key information that make our offerings truly exceptional.

“SIF stands for Slaughter and Inspection Facility. It is a certification that ensures compliance with specific regulations and standards related to poultry slaughtering and inspection processes, particularly chickens.

The SIF certification guarantees that the facility meets the necessary requirements for the hygienic handling, processing, and inspection of chickens, ensuring the safety and quality of the meat produced”.
